TOURNAMENT SCHEDULE

BRENT'S TWO CENTS

I know everyone will soon have their fill of Year-in-Review articles and such, so let's begin looking to '05! The tournament schedule was recently completed, and it promises several fun and competitive opportunities for those so inclined. Georgetown Country Club's new website is up and running. If you haven't checked it out yet, take a look! Diego and myself will be offering instructional tips on it sometime soon, so stay tuned. On that note, we thought you might like a couple of tips (our personal favorites) to mull over while the weather is cool. Diego believes tempo is an often overlooked, but critically important fundamental. "Tempo, timing, and rhythm are the keys to a good, repeatable golf swing. We should all swing at about 85%. Golfers might be surprised how the pace of their swing can correct the mistakes caused by swinging too quickly." A tip I've found that has seemed to help is to keep the weight on the inside of your right foot (RH golfer) on the back swing. This will prevent swaying, insure a good coil, and will give you a head start with your weight shift on the downswing. Give these some thought (and practice), and let us know what you think! **SEE YOU AT THE CLUB!**
